

Brainstorming & Idea Prioritization Template

Date	15 June 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Gandi Manasa Venkata Rama Lahari Sri	Develop a Machine Learning model to predict the Human Development Index (HDI) category using health, education, and income indicators.	Machine Learning	
2	Chirla Naga Deepika	Create a Flask-based web application for users to input country data and receive HDI predictions.	Web Application	
3	Kovvuri Nandini	Analyze and visualize the relationship between life expectancy, education, GNI, and HDI using graphs and charts.	Data Visualization	
4	Dondeti Nagarjuna	Compare different machine learning algorithms and select the most accurate model for HDI prediction.	Model Evaluation	

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	Human Development Index (HDI) Prediction using Machine Learning	High	High	1	Yes
2	Flask Web Application for HDI Prediction	High	High	2	Yes
3	Machine Learning Algorithm Comparison	Medium	Medium	3	No
