Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want to know the HDI of my country. • I need accurate insights for better policy decisions. • I want a quick and reliable prediction system.	THINKS • Which development factor needs the most improvement? • How can I improve my country's HDI ranking? • Will the prediction help in planning future policies?
PERSONAL Role: Policy Analyst User Type: Government Official / Decision Maker	
DOES • Enters Life Expectancy, Education, and GNI values. • Uses the HDI prediction system. • Analyzes the predicted HDI score and category.	FEELS • Confident after receiving accurate predictions. • Satisfied with quick analysis. • Motivated to improve national development policies.
