Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Opens the HDI Prediction system. - Enters Life Expectancy, Education & GNI values. - Submits the details.	- System processes the input. - Machine Learning model predicts the HDI. - Prediction is generated.	- Views HDI score & category. - Analyzes the result. - Uses the insights for decision-making.
Touchpoint <i>What part of the service do they interact with?</i>	- Web Application - Input Form - User Interface	- Flask Backend - ML Prediction Model - Database / Model	- Prediction Result Page - HDI Report - Dashboard
Customer Thought <i>What is the customer thinking?</i>	- Will this prediction be accurate? - Is my input correct? - Can this help me?	- How is the prediction calculated? - Is the model reliable? - How long will it take?	- What does this HDI score mean? - How can I improve it? - Can I compare other countries?
Customer Feeling <i>What is the customer feeling?</i>	- Curious - Hopeful - Interested	- Confident - Satisfied - Excited	- Informed - Happy - Motivated
Process Ownership <i>Who is in the lead on this?</i>	User	ML Model & Flask System	User / Government / Researcher
Opportunities <i>How can we improve this stage?</i>	- Easy data entry. - User-friendly interface. - Input validation.	- Improve model accuracy. - Faster prediction. - Better processing.	- Graphical reports. - Country comparison. - Policy recommendations.
